Automatic Phase Sequence Corrector:

We are specialized in offering a wide range of “VINITEC” make three Phase Sequence Corrector that is designed and constructed to meet the demands of sensitive three phase equipment. VINITEC using superior quality of raw material, Automatic Phase Sequence correctors prevent damages at the time when phase is changed or reversed.

The Key Features of Our Three Phase Sequence Correctors are As Under:

- Suitable for correcting the Three phase sequence, whenever the sequence is changed or reversed.
- No break downs of Lifts, UPS, Machineries, 3 Ph. Air conditioner or any motors or 3-phase system due to any change in sequence
- For Three Phase UPS, during sequence changed or reversed, UPS will start use the battery power & battery may become empty within half or one hour.
- 3 Ph air conditioner will be tripped off, due to sequence reversal & the entire office will be suffering or disturbed because of AC failure
- Avoid damages during phase sequence changes or reversal
- The sequence corrector will switch off, during the single phasing or imbalance voltage occur & later, auto-reset after restoration

Standard Rating

Rating	15 Amps. to 2000 Amps
Frequency	50-60 Hz
Phase	3-Phase
Voltage	240/ 415 Volt or as per customer requirement
Automation	Automatic
